

H■MI — Decision Readiness Intelligence™

Decision Companion · Know When You're Ready · homitechnology.com

One-liner: H■MI helps people see whether they will be okay after a financial commitment — not whether a lender would approve them.

The problem

Consumer finance optimizes for access. People still face pressure, shame, and timing risk. Afford is not the same as ready. Credit scores answer a different question than readiness.

The product

H■MI is a **Decision Companion** for Decision Readiness across three lenses: **Financial Reality** · **Emotional Truth** · **Perfect Timing**. Anti-shame by design. “Not yet” is protection. “Build First” is a map — not failure.

What we are not (bright lines)

Not a lender, broker, credit bureau, RIA, or product marketplace. Not financial/legal/tax advice. No affiliate “our lenders” model. Never: approved, guaranteed, pre-qualified, or “replaces your credit score.”

Who it's for

People facing meaningful financial decisions who want calm clarity before a hard-to-undo commitment. Home is the wedge; vision is readiness for financial decisions more broadly.

Business
